VERVE

DESIGNED TO SUIT YOUR **SPACE** AND YOUR **BUDGET**

For over 65 years Flair have been developing shower doors and bathscreens for homeowners. Flair have built an expert knowledge of the industry and a comprehensive understanding of customer needs. The tradition of design excellence continues with the launch of the all new Hydro Express and Verve ranges.

Flawless in design and technically perfect, Hydro Express and Verve offers superb quality with a fast fit system that is a firm favourite with professional installers.

EXPRESS FIT
QUICK FIT INSTALLATION

INSTALLERS CHOICE
REDUCING INSTALLATION TIME

Our **EXPRESS FIT** design allows the installer to fit Hydro Express & Verve in a quick and easy manner. We have pre-assembled the screws in the horizontal profile, leaving them ready to slot into place. The screw guide rail in the vertical profile makes it easier for the installer to secure the screws into position.

A simple and clever feature in the shower door design, making it quick and easy for the installer to assemble.

HYDRO EXPRESS

VERVE

STEP 1

Align the horizontal and vertical shower door profiles together.

STEP 2

Slide pre-assembled screws into place on vertical profile, using the guide rails.

STEP 3

Tighten screws into position through the punched access port.

HYDRO
WORKS
WITH
YOU

VERVE

Verve is the latest modern Shower Door collection brought to you by Flair Showers. The range features minimalist silver profiles and a sleek contemporary handle design.

Verve products have 6mm toughened safety glass with Clearvue protective coating to repel unwanted grime and limescale. Each sliding door has quick release double rollers for ease of cleaning. Verve also features an innovative fast fit system that is a firm favourite with installers.

Affordable quality is the essence of the Verve collection.

Verve Matte Black - Anodised Finish

Anodising is an electrochemical process that converts the metal surface to a durable, corrosion resistant, anodic oxide finish. The aluminium oxide finish is not just applied to the surface like a paint or plating, but it is fully integrated with the underlying aluminium substrate so that it cannot chip or peel. For Verve Matte Black, this means a superbly robust product that is designed for the busiest of bathroom environments.

KEY FEATURES

CLEARVUE HYDROPHOBIC COATING RESISTS THE BUILD UP OF GRIME AND LIMESCALE ON THE GLASS SURFACE

HYDRO
EXPRESS

The all new Hydro express is an exciting remodel of Hydro - a tried and trusted brand brought to you by Flair Showers. Hydro's new design is crisp and contemporary with sleek modern handles and minimalist silver profiles.

Each door is 1850mm high and features up to 6mm toughened safety glass. Quick release rollers ensure easy cleaning while magnetic seals provide a watertight close.

This innovative range also boasts an express fit mechanism that is a firm favourite with installers.

Hydro Express - Designed to suit your space and budget.

SLIMLINE SHOWER TRAYS

STONE RESIN   ACRYLIC CAPPED ABS SHELL

40mm

NOTE: It is normal for a small amount of localized water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

Extensive selection of shower tray shapes and sizes to complement your bathroom to accompany the Hydro Express and Verve ranges.

– Strong and rigid construction

– Manufactured to British Standard BS6340/5

– Tough high gloss ABS acrylic capped surface finish

– Easy-to-clean and maintain

SHOWER TRAY INSTALLATION
All shower trays must be installed as per instructions supplied. Please note: Silicone sealants, foams, mastics, installation compound adhesive etc. must not be used as a substitute for cement. Ensure shower tray is installed 100% level and water test to ensure it is draining correctly. Fitting of Shower Tray is acceptance of quality.

SLIMLINE TRAY WITH EASY PLUMB KIT

ACRYLIC FINISH

RESIN AND FIBRE INSIDE

ADJUSTABLE FEET

EASY PLUMB KIT SUITS ALL SLIMLINE SHOWER TRAYS

Slimline easy plumb shower kits have adjustable legs to comply with building regulations to assist in installation and for maintenance of waste outlets if required after building settlement.

The slimline easy plumb kit provides this access without compromising on style in the bathroom.

An easy plumb tray can be made by using any of the Flair slimline trays and a kit. This will increase the height of the tray by 95mm.

Accessories are not to scale - for visual representation only.

QUALITY GUARANTEED

QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair products are CE approved and manufactured in accordance with ISO 9001 :2000 Quality Assurance systems. All glass is toughed safety glass and produced to EN12150. Flair products are performance tested to EN14428, ensuring the highest industry criteria is met.
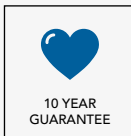

10 YEAR GUARANTEE

HYDRO shower doors and bath screens are covered by a 10 year guarantee against manufacturer defect.
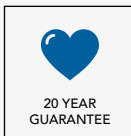

20 YEAR GUARANTEE

VERVE shower doors, Bathscreens and wetrooms are covered by a 20 year guarantee against manufacturer defect.

This guarantee is valid on condition that the goods are installed and maintained in accordance with the products fitting instructions and best practices.

Non glass and detachable parts such as rollers, seals etc. are subject to normal wear and tear during usage and are under guarantee for 12 months from time of purchase.

Please complete your product guarantee card included in the components box or register online at flairshowers.com/register.

Note: Proof of purchase is necessary to validate your guarantee so retain purchase receipt for your Flair product.

If a Flair shower enclosure is defective in materials or manufacture, please contact us on 00353 42 966 8000.

CLEARVUE GLASS TREATMENT SYSTEM

VERVE shower doors, wetroom panels and Bathscreens are supplied with a special glass coating designed to reduce limescale build up and make cleaning the glass easier.

AFTERSALES & SPARE PARTS SERVICE

Flair is 100% committed to customer service excellence.

We carry a full range of spare parts for each product range and have dedicated aftersales specialists to deal with any issues you may have.

If you have any queries, please contact Flair on 00353 42 966 8000.

RETURN POLICY

Flair will not accept return of any product that has been opened.

We do not accept return of any product if the packaging has been damaged.

If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

SHOWER DOOR INSTALLATION ADVICE

BEFORE YOU INSTALL YOUR SHOWER ENCLOSURE PLEASE READ ALL INSTRUCTIONS. FAILURE TO DO SO MAY LEAD TO INVALIDATION OF YOUR GUARANTEE.

Flair Showers Ltd will not accept responsibility for any loss or damage, however caused, if the shower enclosure has not been installed as per the instructions.

– The shower tray MUST be fitted 100% level. The shower tray must be sealed correctly to prevent any water leakage.
– Glass edges are vulnerable and should be treated with care at all times. Contact with hard surfaces may result in glass breakage if due care is not taken.
– Check walls for electrical cabling or water pipes before drilling.
– Your shower enclosure, Bathscreen or wetroom must be inspected before installation. Check for all visual defects on the product before installation. Once the enclosure has been installed no claims of damage or defect will be accepted. Fitting of shower enclosure is acceptance of quality.
– The wall plugs supplied with the shower door are for use in solid walls. Timber frame, stud partition walls will require alternative fixings.
– Ensure vertical wall profiles are level and are an equal distance in from the tray.
– Shower Doors, Wetroom Screens, Bathscreens and Side Panels are adjustable between the dimensions stated. All dimensions are approximate.
– Ensure adjustment at wall profiles are equal at both sides and that all screws are fully tightened.
– Ensure hinges are level and securely fitted to the glass.
– Ensure magnets are the right orientation and are attracting rather than repelling.
– The shower enclosure should be sealed on the outside only using silicone sealant.

– Care must be taken during assembly. Flair will not accept responsibility where incorrect assembly results in undue stress being put on any components in this product.
– If there are any manufacturer defects, please call Flair Service Line on +353 42 966 8000.
– Note: If a problem has been caused by incorrect installation, a call-out charge will apply for the Flair technical engineer's time. Subsequent charges will apply "to fix" a problem caused by incorrect installation.

BATHSCREEN INSTALLATION

The Bathscreen must be installed on a 100% level surface with the bath edge free from obstructions.

Bathscreens should not be used on a bath with roll top rim, stepped edge rim or where the bath handle void meets the Bathscreen seal. This will impact on the performance of the bathscreen and the guarantee will be void. The Bathscreen should be fitted to the inside edge of the bath only.

A Bathscreen acts as a water deflector and is not 100% waterproof. If used appropriately under normal showering conditions and installed to the inside edge of the bath, water will be deflected into the showering area. Bathscreens are not suitable for power showers.

SHOWER TRAY INSTALLATION

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

CLEANING GUIDELINES

– Glass: Use a soft cloth and mild detergent, rinse off thoroughly.
– Metallic Surfaces: Use a soft cloth and warm soapy water. Rinse off thoroughly.
– Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads. Only use detergents, cleaners and limescale removers with a pH of 5-8.
– The constant use of detergents will degrade the finish of the product over time if not thoroughly rinsed off.
– In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with the use of a mild limescale remover.
– Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.

CONDITIONS OF SALE

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

As part of our continuing policy of product improvement, we reserve the right to amend specifications, colours and prices without prior notice. Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads and shower wastes in the brochure is for illustrative purposes only.

*Errors and Omissions Exempt.
