

DESIGN AWARDS

Flair are proud to have received three design accolades in recognition of the ORO shower door collection.

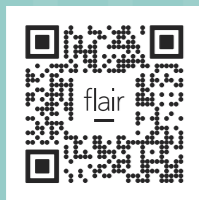

The **Good Design Award**, **RedDot Award**, and **iF Design Award** are seals of global design excellence and a testimony to our passion for product quality and innovation.

PATENTED MAGNETIC GUIDE

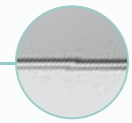

The patented Magnetic Guide System is the first of the kind in the industry. It ensures the smoothest of motion for each sliding door as it glides along the bottom rail.

THE ORO[®] COLLECTION

ORO - the epitome of grace & beauty.

With a graceful aesthetic, the award winning ORO collection is a union of design innovation and functional perfection. This signature collection sets the standard in frameless shower door design.

The hand crafted ORO door handles are one of a kind and distinctly individual. The patented magnetic guide system provides a smooth and effortless gliding action for each sliding door. Elegance shines through the curved profile and hinge detailing.

Each ORO detail is carefully considered to enhance your experience every day.

SLIDING DOOR

SILVER MATTE BLACK

A delightful choice, the ORO Sliding Door glides along with smooth perfection. The patented magnetic guide on the bottom of the door is the first of its kind on the market. 8mm toughened safety glass offers a tactile feeling of strength and quality.

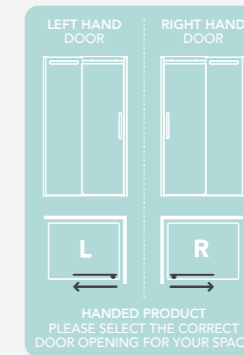

The floating top rail design is a signature characteristic of the ORO range. With a seamless interior cover cap, the top rail also cleverly conceals the roller system. The finishing touch is the unique handle design – beautifully formed and a pleasure to use.

SLIDING DOOR WITH TWO INLINE PANELS

SILVER MATTE BLACK

The Sliding Door with two inline panels provides a sleek, contemporary look while maximizing space.

The patented magnetic guide system is designed to guarantee the smoothest motion as the door glides around the bottom rail.

The sliding door with two inline panels can be installed in an alcove or with a frameless side panel option and is the perfect choice for a large, luxurious showering zone.

SLIDING QUADRANT DOOR

SILVER MATTE BLACK

Creative engineering has shaped the unique ORO Sliding Quadrant. The top floating rail design ingeniously encloses the roller system to give the door a sleek polished look. Practically speaking, the concealed rollers ensure reduced cleaning time.

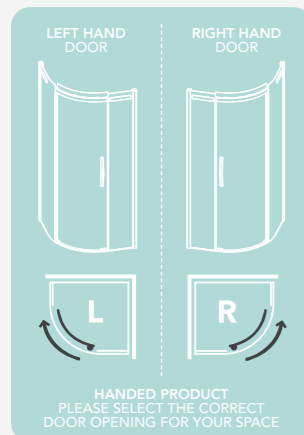

Functional distinction continues with the patented magnetic guide system – this design innovation guarantees the smoothest motion as the door glides around the bottom rail. The final detail is the crafted handle design, befitting for the overall elegance of this door.

BIFOLD DOOR

SILVER MATTE BLACK

The ingenious design of the ORO Bifold Door makes it a firm favourite amongst this 8mm shower door range.

The innovative 180 degree hinge mechanism enables the door to open inwards and outwards, offering you total flexibility. A self stop hinge action prevents the door glass extending into contact with the shower wall or door hinges. The bifold hinge is meticulously engineered giving this frameless door exceptional stability. The signature ORO handle design adds the finishing touch to this bijoux beauty.

INLINE PANEL TO SUIT HINGE & INLINE DOOR

SILVER MATTE BLACK

The ORO hinge & Inline door installed with an inline panel achieves a luxurious, spacious feel whilst not compromising on functionality.

With an emphasis on frameless aesthetics, the curved hinges are countersunk on the interior allowing for effortless cleaning of the shower glass. The 8mm toughened safety glass stands at 2 metres tall and boasts Clearvue hydrophobic coating, making this shower door the perfect blend of form and function.

HINGE & INLINE DOOR WITH INLINE PANEL IN ALCOVE - SILVER

BIFOLD DOOR WITH ULTRA FRAMELESS CORNER SIDE PANEL

SILVER MATTE BLACK

The ORO Bifold and ultra frameless corner side panel is a truly versatile shower door choice. Designed to open both inwards and outwards, the self stop hinge mechanism prevents the bifold door from folding into contact with the glass panels. The raised stabilising bar is engineered to accompany the frameless corner side panel and with its extra height, allows the door to fold inwards without restriction.

STEP 1 - SELECT SIZE OF ULTRA FRAMELESS CORNER SIDE PANEL

PRODUCT SIZE (mm)	ADJUSTMENT SIZE		CODE SILVER	CODE MATTE BLACK
	MIN (mm)	MAX (mm)

HINGED AND INLINE DOOR

Please select carefully the ORO Hinge and Inline Door that is the correct hand opening for your space.

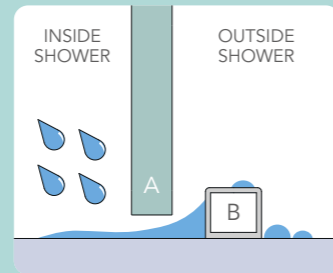

ORO[®] WATER RETENTION GUIDE

ORO Sliding Doors have an award winning design that reduces the need for invasive seals or large bottom rails allowing the customer a unique frameless showering experience.

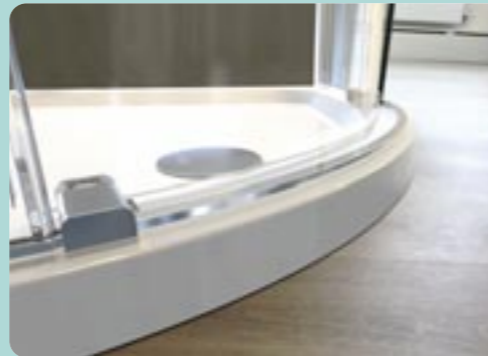

As standard, ORO Sliding Doors come with a minimalist bottom barrier bar that does not include the use of an invasive seal or large bottom rail as part of the frameless design.

The ORO enclosure range is tested and certified for water retention in accordance with EN14428 where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions.

However, in unconventional showering practices, to further improve water retention and minimise any water escaping from the shower enclosure we have designed additional water retention solutions for optional use by customers.

A - Sliding Door Glass
B - Minimal Barrier Bar

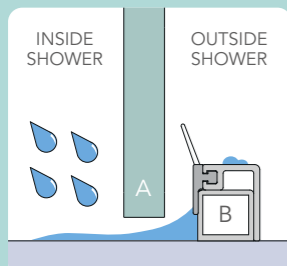

OPTION 1 THRESHOLD SEAL

The ORO Threshold seal is a minimal 15mm high silver profile with a discreet clear seal that can be easily fitted on top of the barrier bar during or after installation.

The Threshold seal will provide an increased level of water retention and protect against large surges of water escaping from the shower area. ORO Threshold seals are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TSS, S-OROSA120TSS,
S-OROSA140-160TSS, S-OROSQTSS

A - Sliding Door Glass
B - Minimal Barrier Bar
1 - Threshold Seal

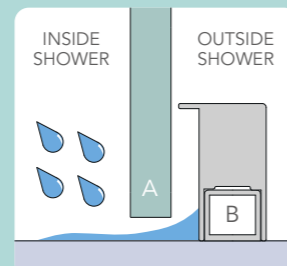

OPTION 2 THRESHOLD BARRIER BAR

The ORO Threshold Barrier Bar is a larger 27mm high barrier bar which can be easily fitted on top of the barrier bar during or after installation.

The Threshold Barrier Bar offers the highest level of water retention available in the ORO Frameless Sliding Door's design. ORO Threshold Barrier Bars are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TBS, S-OROSA120TBS,
S-OROSA140-160TBS, S-OROSQTBS

A - Sliding Door Glass
B - Minimal Barrier Bar
2 - Threshold Bar

QUALITY GUARANTEED

At Flair we have an unwavering commitment to product quality.

All Flair Shower doors and wetrooms are CE approved and manufactured in accordance with ISO 9001:2000 Quality Assurance systems. All glass is toughed safety glass and produced to EN12150.

Flair products are performance tested to EN14428. Shower doors and rotating wetroom panels have been subject to lifetime shower door cycle testing consisting of 20,000 functional cycles.

Flair Shower doors and rotating wetroom panels have also been tested for their durability, stability, and water retention properties to ensure that they meet the highest possible industry standards. Water is maintained where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions. Please note - Due to the weight of certain products, they may require a two man lift.

Images shown in this catalogue are for illustrative purposes only. All descriptions contained in this catalogue are for the purpose of explaining each product more clearly and do not form part of any contract with the company.

Guarantee

ORO & ETO Shower Doors are covered by a lifetime guarantee against manufacturer defect. A lifetime guarantee constitutes a term of 20 years. AYO Wetrooms and Bathscreens are covered by a 20 year guarantee against manufacturer defect. Shower Trays are subject to manufacturer guarantee. All guarantees are valid on the condition that goods are installed and maintained in accordance with the products fitting instructions and best practices. This guarantee is for domestic use only.

***Note: Non glass and detachable parts such as seals and cover caps are subject to normal wear and tear during usage and are under statutory guarantee for 2 years from time of purchase. Glass shattering is not subject to Lifetime guarantee.**

We ask our customers to register their guarantee online at www.flairshowers.com or return the guarantee card that comes with every Flair product.

After-sales & Spare Parts Service

Flair Showers are 100% committed to customer service excellence. For ultimate peace of mind, a comprehensive range of spare parts is available for all Flair product ranges. If you would like to talk to an aftercare specialist about your Flair product, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

Return Policy

Flair will not accept return of any product that has been opened. We do not accept return of any product if the packaging has been damaged. If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

Cleaning Guidelines

- Glass: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water; rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with warm soapy water.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit / dirt which may have collected over time.

Installation

Full installation instructions are provided with each product to ensure correct installation. All Shower doors and wetroom panels are adjustable between the dimensions stated. All dimensions are approximate.

Shower Tray Installation

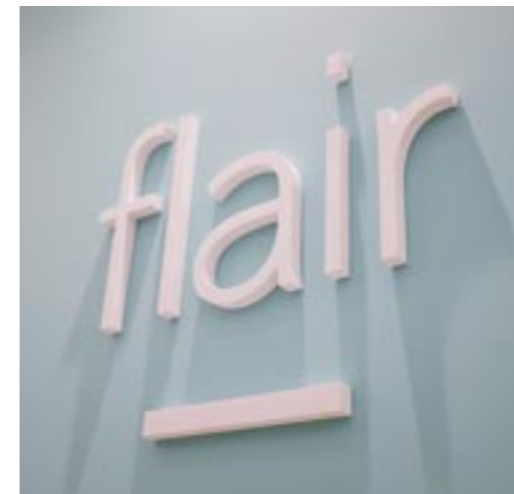

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

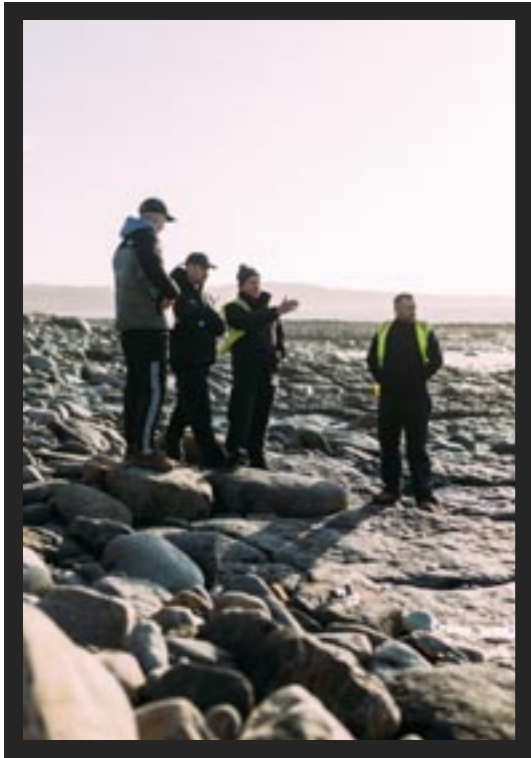

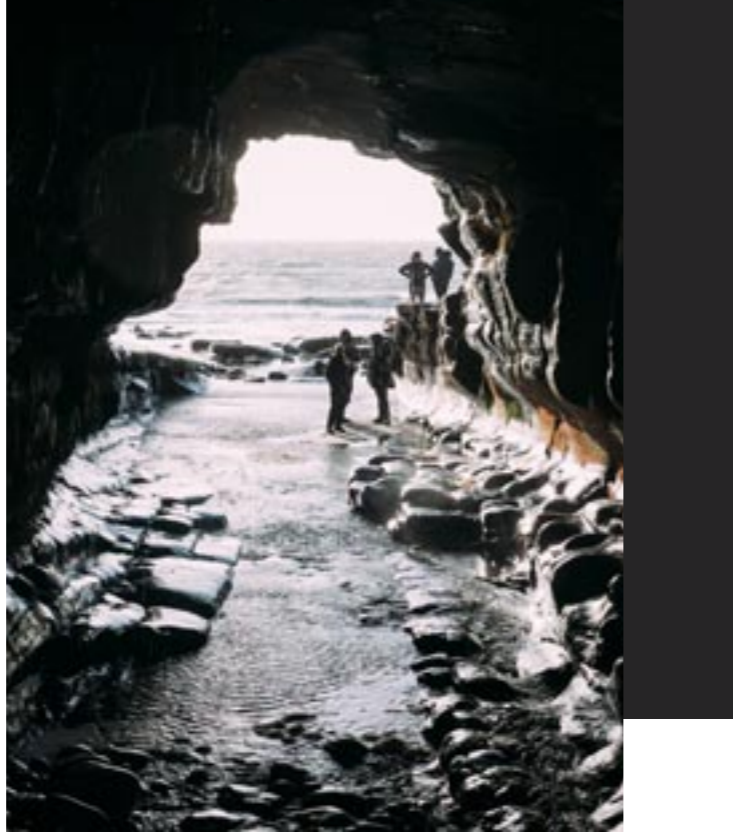

Conditions of Sale

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

AS PART OF OUR CONTINUING POLICY OF PRODUCT IMPROVEMENT, WE RESERVE THE RIGHT TO AMEND SPECIFICATIONS, COLOURS AND PRICES WITHOUT PRIOR NOTICE.

*Errors and Omissions Exempt.
