OVER **70** YEARS

Founded in County Cavan in 1952, Flair Showers have built up a trusted reputation as a specialist in the production of quality shower doors, wetrooms and bathscreens. Our reputation has stood the test of time, making us the oldest manufacturer of our kind in Ireland. We are proud to be a brand of choice for customers internationally.

With an unwavering commitment to customer care, Flair combine lifelong knowledge and expertise with advanced production techniques. We can accommodate a great variety of bathroom styles with an extensive product portfolio. Our mission is to inspire through meaningful designs that bring a new sense of enrichment to the bathroom and enjoyment to our customers. As you explore the Harmony Collections catalogue, we hope you are captivated by every detail.

The perfect blend of function and form. Designed for life.

AWARD WINNING PRODUCT DESIGNS

Flair's unrelenting passion for innovation has achieved International recognition in the form of numerous design award accolades.

GOOD DESIGN AWARD® (CHICAGO)
Founded in 1950 by architects Eero Saarinen, Charles and Ray Eames and Edgar Kaufmann, **GOOD DESIGN®** is the world's oldest Design Awards program. It is organised annually by The Chicago Athenaeum Museum of Architecture and Design. It recognises the work of manufacturers who have undertaken the design challenge to produce product of the most outstanding design globally.

RED DOT DESIGN AWARD (GERMANY)
The **Red Dot** label is recognised as a warranty of design excellence. It is awarded to entrants who demonstrate an innovative spirit with product of the highest quality, form and function gaining this design awards honour.

iF DESIGN AWARD (GERMANY)
The **iF DESIGN AWARD** recognises exceptionally well-designed products. Since 1953, an esteemed jury of International design experts have awarded this symbol to product that is user focused, ergonomic and efficient in its design.

DESIGN AWARDS

Flair are proud to have received three design accolades in recognition of the ORO shower door collection.

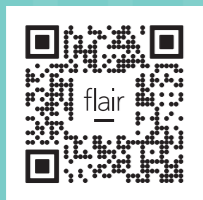

The **Good Design Award**, **RedDot Award**, and **iF Design Award** are seals of global design excellence and a testimony to our passion for product quality and innovation.

PATENTED MAGNETIC GUIDE

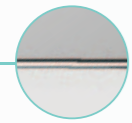

The patented Magnetic Guide System is the first of the kind in the industry. It ensures the smoothest of motion for each sliding door as it glides along the bottom rail.

THE ORO[®] COLLECTION

ORO - the epitome of grace & beauty.

With a graceful aesthetic, the award winning ORO collection is a union of design innovation and functional perfection. This signature collection sets the standard in frameless shower door design.

The hand crafted ORO door handles are one of a kind and distinctly individual. The patented magnetic guide system provides a smooth and effortless gliding action for each sliding door. Elegance shines through the curved profile and hinge detailing.

Each ORO detail is carefully considered to enhance your experience every day.

SLIDING DOOR

SILVER MATTE BLACK

A delightful choice, the ORO Sliding Door glides along with smooth perfection. The patented magnetic guide on the bottom of the door is the first of its kind on the market. 8mm toughened safety glass offers a tactile feeling of strength and quality.

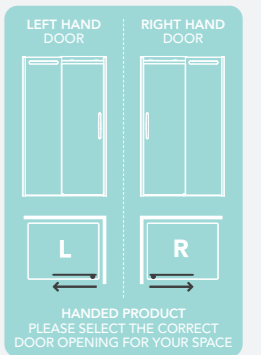

The floating top rail design is a signature characteristic of the ORO range. With a seamless interior cover cap, the top rail also cleverly conceals the roller system. The finishing touch is the unique handle design – beautifully formed and a pleasure to use.

SLIDING DOOR WITH TWO INLINE PANELS

SILVER MATTE BLACK

The Sliding Door with two inline panels provides a sleek, contemporary look while maximizing space.

The patented magnetic guide system is designed to guarantee the smoothest motion as the door glides around the bottom rail.

The sliding door with two inline panels can be installed in an alcove or with a frameless side panel option and is the perfect choice for a large, luxurious showering zone.

SLIDING QUADRANT DOOR

SILVER MATTE BLACK

Creative engineering has shaped the unique ORO Sliding Quadrant. The top floating rail design ingeniously encloses the roller system to give the door a sleek polished look. Practically speaking, the concealed rollers ensure reduced cleaning time.

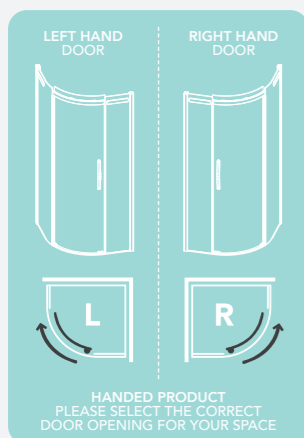

Functional distinction continues with the patented magnetic guide system – this design innovation guarantees the smoothest motion as the door glides around the bottom rail. The final detail is the crafted handle design, befitting for the overall elegance of this door.

BIFOLD DOOR

SILVER MATTE BLACK

The ingenious design of the ORO Bifold Door makes it a firm favourite amongst this 8mm shower door range.

The innovative 180 degree hinge mechanism enables the door to open inwards and outwards, offering you total flexibility. A self stop hinge action prevents the door glass extending into contact with the shower wall or door hinges. The bifold hinge is meticulously engineered giving this frameless door exceptional stability. The signature ORO handle design adds the finishing touch to this bijoux beauty.

HINGE DOOR SILVER MATTE BLACK

Experience perfection with the 8mm ORO hinge door. Ideal for smaller spaces, this frameless door features curved radius detailing throughout. Interior fixation points are discreetly concealed by an innovative cover cap design. The countersunk interior hinges allow you to wipe the shower glass clean with ease.

Ultra clear magnetic seals give the hinge door a reassuring close action. The finishing touch is the crafted chrome handles – shaped to give a tactile feeling of smooth perfection.

HINGE & INLINE DOOR

SILVER MATTE BLACK

Striking in its appearance, the ORO Hinge and Inline door is a statement piece for your bathroom.

The **gently curved hinges** have a countersunk interior design and can be wiped clean with ease. The **T-bar stabiliser** has concealed fixings and its sleek construction blends subtly into the products profile. Ultra clear magnetic seals giving a superior close action. The finishing touch is the **crafted chrome handles**, their perfect symmetry complementing the overall elegance of the door.

INLINE PANEL TO SUIT HINGE & INLINE DOOR

SILVER MATTE BLACK

The ORO hinge & Inline door installed with an inline panel achieves a luxurious, spacious feel whilst not compromising on functionality.

With an emphasis on frameless aesthetics, the curved hinges are countersunk on the interior allowing for effortless cleaning of the shower glass. The 8mm toughened safety glass stands at 2 metres tall and boasts Clearvue hydrophobic coating, making this shower door the perfect blend of form and function.

BIFOLD DOOR WITH ULTRA FRAMELESS CORNER SIDE PANEL

SILVER MATTE BLACK

The ORO Bifold and ultra frameless corner side panel is a truly versatile shower door choice. Designed to open both inwards and outwards, the self stop hinge mechanism prevents the bifold door from folding into contact with the glass panels. The raised stabilising bar is engineered to accompany the frameless corner side panel and with its extra height, allows the door to fold inwards without restriction.

HINGED AND INLINE DOOR

Please select carefully the ORO Hinge and Inline Door that is the correct hand opening for your space.

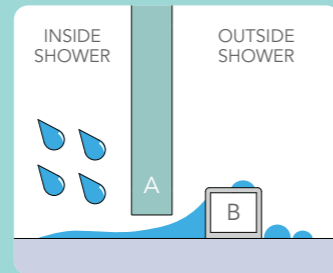

ORO[®] WATER RETENTION GUIDE

ORO Sliding Doors have an award winning design that reduces the need for invasive seals or large bottom rails allowing the customer a unique frameless showering experience.

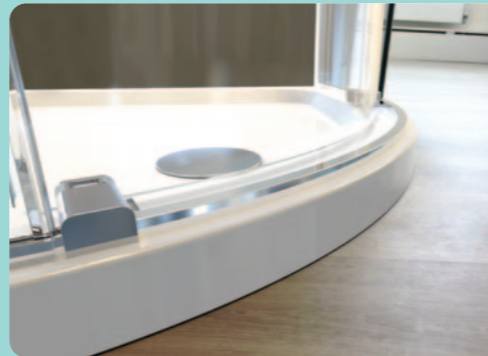

As standard, ORO Sliding Doors come with a minimalist bottom barrier bar that does not include the use of an invasive seal or large bottom rail as part of the frameless design.

The ORO enclosure range is tested and certified for water retention in accordance with EN14428 where conventional showering practices are used and the product has been fitted in accordance with the Flair Fitting Instructions.

However, in unconventional showering practices, to further improve water retention and minimise any water escaping from the shower enclosure we have designed additional water retention solutions for optional use by customers.

A - Sliding Door Glass
B - Minimal Barrier Bar

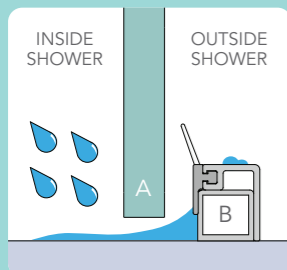

OPTION 1 THRESHOLD SEAL

The ORO Threshold seal is a minimal 15mm high silver profile with a discreet clear seal that can be easily fitted on top of the barrier bar during or after installation.

The Threshold seal will provide an increased level of water retention and protect against large surges of water escaping from the shower area. ORO Threshold seals are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TSS, S-OROSA120TSS,
S-OROSA140-160TSS, S-OROSQTSS

A - Sliding Door Glass
B - Minimal Barrier Bar
I - Threshold Seal

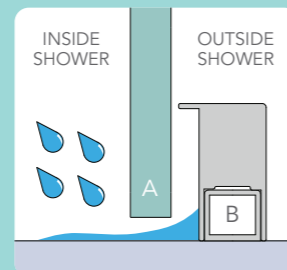

OPTION 2 THRESHOLD BARRIER BAR

The ORO Threshold Barrier Bar is a larger 27mm high barrier bar which can be easily fitted on top of the barrier bar during or after installation.

The Threshold Barrier Bar offers the highest level of water retention available in the ORO Frameless Sliding Door's design. ORO Threshold Barrier Bars are readily available from Flair Showers and can be ordered using the below product codes.

Product Codes:

S-OROSA110TBS, S-OROSA120TBS,
S-OROSA140-160TBS, S-OROSQTBS

A - Sliding Door Glass
B - Minimal Barrier Bar
2 - Threshold Bar

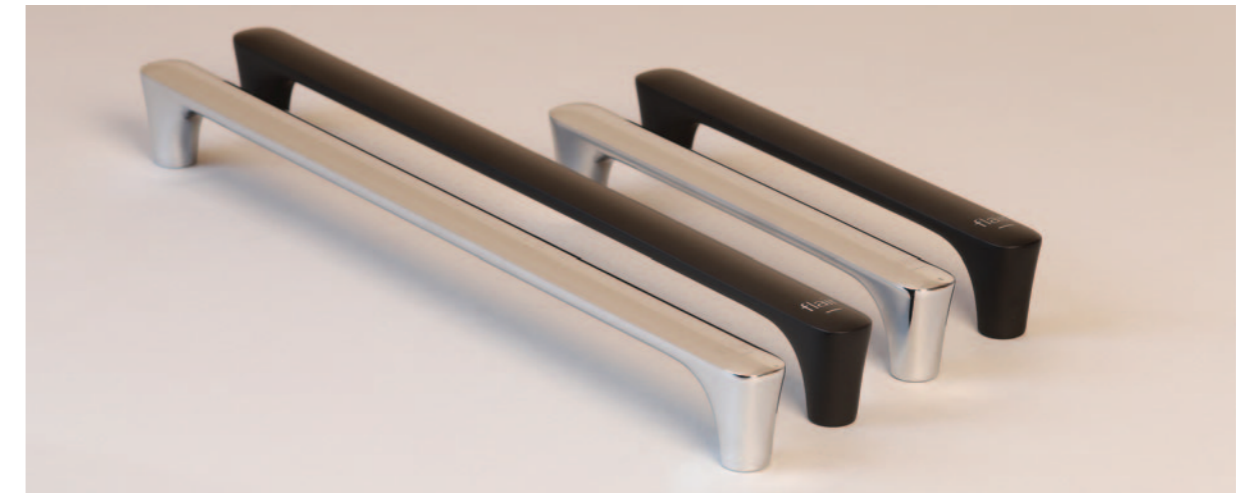

ORO[®] ALTERNATIVE HANDLES

THE ETO[®] COLLECTION

Experience elegant practicality with ETO.

Crafted to seamlessly integrate into your daily routine, the ETO shower door collection combines robust design with clever functional innovations.

The uniquely shaped handle is beautifully precise and features a cleverly integrated towel hook. Softly curved hinges with a countersunk finish and a slim profile design create a refined shower door aesthetic.

The stylish yet functional simplicity of the ETO collection embodies Design with Purpose, a concept which lies at the heart of this collection.

DESIGN WITH PURPOSE

MAGNETIC INFOLD LINKAGE SYSTEM

The ETO Infold door features a pioneering magnetic linkage system which ensures the smoothest of motion as the door functions. The solid metal linkage arm is bonded directly to the glass and provides for an ultra minimalist infold door aesthetic. This innovative design removes the need for magnetic seals, giving a beautifully seamless glass edge on the door.

MAGNETIC CUSHION CLOSE DOOR SYSTEM

A concealed piston door close system gives ETO sliding doors a controlled and gentle close action. Double rollers with stainless steel ball bearings and a stainless steel wheel bracket design deliver an effortless sliding experience as the door glides along the magnetised rail.

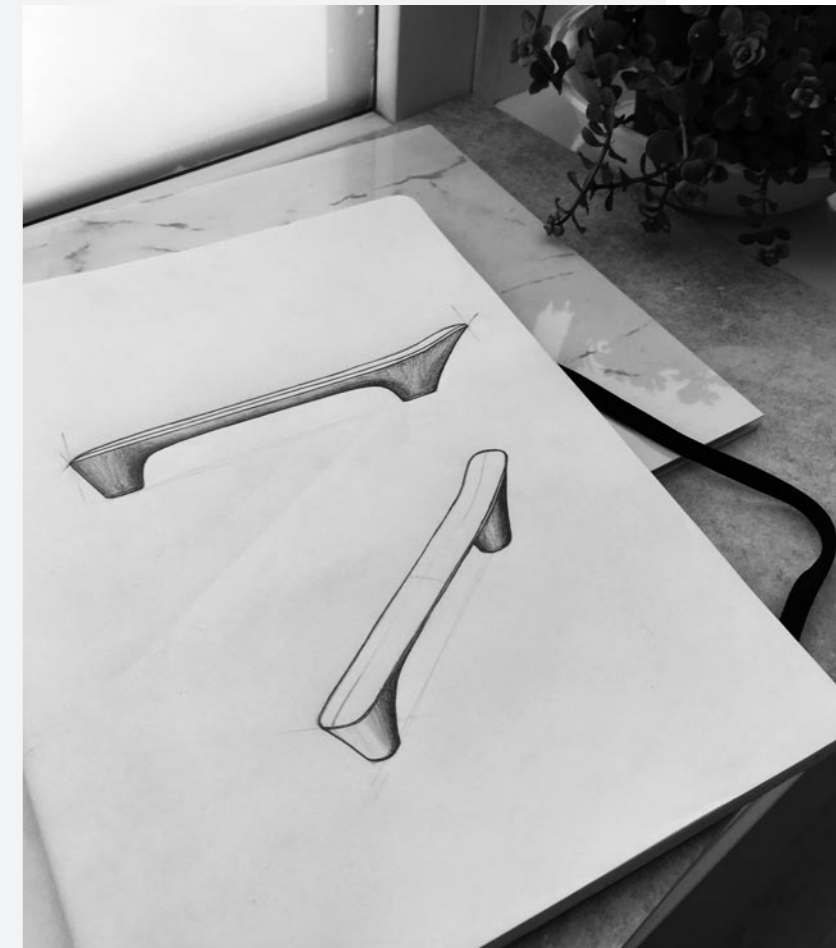

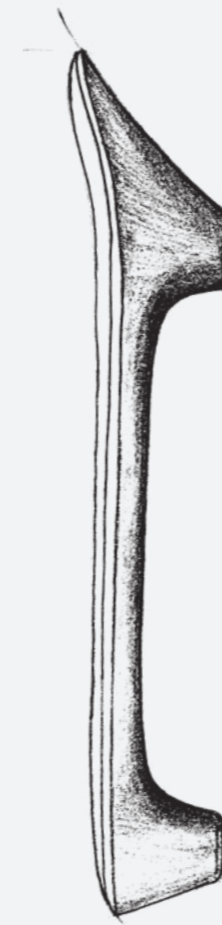

PATENTED CLICK FIT ASSEMBLY SYSTEM

With our installers in mind, Flair have designed ETO with a patented "Click Fit" Assembly System.

This revolutionary assembly mechanism is screw free and ensures each door can be installed easily and securely.

The tapered dovetail joint locks securely into position, giving a seamless connection between the vertical and horizontal profiles. This pioneering installation system ensures maximum structural integrity within every door and makes ETO the shower door of choice for the busiest of bathrooms.

(European Application No 19170695.1)

ETO

INFOLD DOOR

SILVER

MATTE BLACK

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

INFOLD DOOR IN ALCOVE - SILVER

INFOLD DOOR WITH SEMI FRAMED SIDE PANEL - MATTE BLACK

HINGE DOOR

SILVER MATTE BLACK

The stylish yet functional simplicity of the ETO Hinge door makes it the ideal choice for today's contemporary bathroom.

This 2 metre high door is supported by two precisely curved hinges that boast a flush to glass interior finish which allow for ease of cleaning. 8mm toughened safety glass is coated with ClearVue hydrophobic coating to resist the build up of unwanted grime and limescale.

The ETO Hinge door can be fitted independently in an alcove setting or with a dedicated ETO side panel of choice.

MATTE BLACK

With minimalist profiles surrounding 8mm toughened safety glass, the ETO Sliding Door is designed with long lasting durability in mind.

The sliding door glass is guided by stainless steel wheel brackets which provide an effortlessly smooth experience. The magnetic cushion close mechanism ensures a controlled and gentle action as the door opens and closes.

The curvature of the crafted ETO handle feels beautifully precise in hand, whilst also doubling up on functionality with its integrated towel hook design.

ONE DOOR QUADRANT

SILVER MATTE BLACK

The ETO One Door Quadrant is perfectly shaped to make the most out of a corner bathroom space.

Ideal for any bathroom, the innovative magnetic cushion close feature ensures a smooth rolling door action on this quadrant. The double wheel rollers have a stainless steel composition for longevity and their quick release design allow for ease of cleaning.

ClearVue hydrophobic coating on the 8mm toughened safety glass resists the build up of grime and limescale on the glass surface. The centrally positioned door opening provides easy access to the shower space and is considerate of furniture positioning within the bathroom.

CORNER ENTRY

SILVER

The ETO Corner Entry boasts contemporary clean lines and a sturdy semi frameless design. The two door corner sliding configuration make the corner entry an ideal choice for the bathroom where space is limited.

The flush finish on the corner brackets provides for a truly seamless door aesthetic. Quick release double rollers ensure ease of cleaning while the magnetic cushion close system brings this door to a controlled and gentle stop.

Superior magnetic seals ensure watertightness and give a positive close action when both doors are drawn together.

INTRODUCING ETO[®] BRUSHED COLLECTION

AWARD WINNING
PRODUCT DESIGNS

ETO[®]

Enhance your bathroom with the newly launched ETO Brushed Collection.

The Flair design team are uncompromising in using the finest materials as they craft our signature product ranges. ETO Brushed Collection profiles have an anodised finish, which means they are superbly robust and will stand the test of time.

Anodising is an electrochemical process that converts the metal substrate to a corrosion resistant durable finish. The aluminium oxide is not just applied to the surface like a plating or coating, but it is fully integrated with the underlying aluminium substrate to avoid the risk of peeling or chipping.

The uniquely crafted ETO Brushed Collection handle has a PVD finish to ensure maximum durability in the busy bathroom environment. PVD technology is one of the most hard-wearing surface finish processes, whereby the original base material is permanently changed to the desired colour composition. This ensures that the surface finish will not wear off or degenerate over time.

The stylish yet functional simplicity throughout the ETO Brushed Collection embodies Design with Purpose, a concept which lies at the heart of the ETO Collection.

HINGE DOOR WITH SEMI FRAMED SIDE PANEL - BRUSHED BRASS

ETO BRUSHED COLLECTION

HINGE DOOR

BRUSHED BRASS

The stylish yet functional simplicity of the ETO Hinge door makes it the ideal choice for today's contemporary bathroom.

This 2 metre high door is supported by two precisely curved hinges that boast a flush to glass interior finish which allow for ease of cleaning. 8mm toughened safety glass is coated with ClearVue hydrophobic coating to resist the build up of unwanted grime and limescale.

The ETO Hinge door can be fitted independently in an alcove setting or with a dedicated ETO side panel of choice.

ETO BRUSHED COLLECTION

INFOLD DOOR

BRUSHED BRASS BRUSHED NICKEL BRUSHED BRONZE

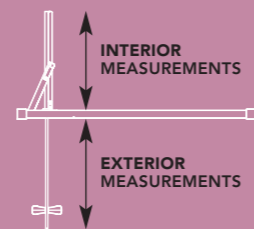

The ETO Infold is the perfect blend of elegance with practical functionality.

This outward opening door protrudes minimally into the bathroom, saving on space. The unique Infold door design also affords generous access to the shower.

The ETO Infold features a pioneering magnetic linkage system which gives the door a perfectly smooth gliding action. This innovative design removes the need for magnetic seals on the glass, giving a beautifully seamless glass edge to the door.

As is standard across the ETO range, the Infold door is constructed from 8mm toughened safety glass with ClearVue hydrophobic coating. All interior fixings are fully concealed, making this shower enclosure as delightful internally as externally.

INFOLD DOOR IN ALCOVE - BRUSHED NICKEL

INFOLD DOOR WITH SEMI FRAMED SIDE PANEL - BRUSHED BRASS

ETO BRUSHED COLLECTION

SLIDING DOOR

BRUSHED BRASS

BRUSHED NICKEL

BRUSHED BRONZE

With minimalist profiles surrounding 8mm toughened safety glass, the ETO Sliding is designed with long lasting durability in mind.

The sliding door glass is guided by stainless steel wheel brackets which provide an effortlessly smooth experience. The magnetic cushion close mechanism ensures a controlled and gentle action as the door opens and closes.

The curvature of the crafted ETO handle feels beautifully precise in hand, whilst also doubling up on functionality with its integrated towel hook design.

INFOLD DOOR WITH INLINE PANEL - BRUSHED BRASS

ETO BRUSHED COLLECTION

ONE DOOR QUADRANT & OFFSET QUADRANT

BRUSHED BRASS BRUSHED NICKEL BRUSHED BRONZE

The ETO One Door Quadrant and Offset Quadrant are perfectly shaped to make the most out of a corner bathroom space.

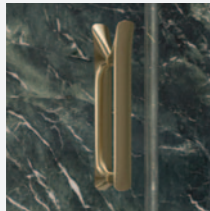

Ideal for larger bathrooms, the innovative magnetic cushion close feature ensures a smooth rolling door action on this offset quadrant. The double wheel rollers have a stainless steel composition for longevity and their quick release design allow for ease of cleaning.

ClearVue hydrophobic coating on the 8mm toughened safety glass resists the build up of grime and limescale on the glass surface. The centrally positioned door opening provides easy access to the shower space and is considerate of furniture positioning within the bathroom.

DESIGN WITH PURPOSE

PATENTED CLICK FIT ASSEMBLY SYSTEM

With our installers in mind, Flair have designed ILI with a patented "Click Fit" Assembly System.

This revolutionary assembly mechanism is screw free and ensures each door can be installed easily and securely.

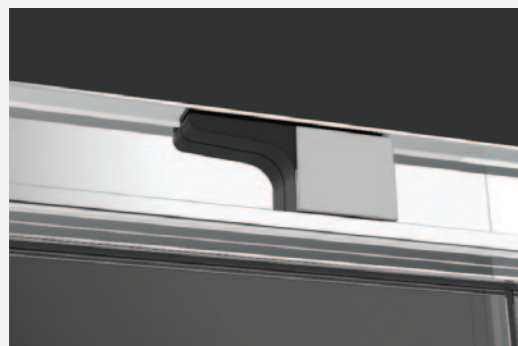

The tapered dovetail joint locks securely into position, giving a seamless connection between the vertical and horizontal profiles. This pioneering installation system ensures maximum structural integrity within every door and makes ILI the shower door of choice for the busiest of bathrooms.

(European Patent No 3730017)

MAGNETIC BIFOLD SYSTEM

The ILI Bifold door features an aesthetically pleasing functional magnetic system which ensure the smoothest of motion as the door functions. The beautifully curved hinge aligns with the design of ILI.

CONCEALED LONG DOOR STOP

A concealed long door stop system gives ILI sliding doors a controlled and gentle closing action. Double rollers with stainless steel ball bearings deliver an effortless sliding experience as the door glides along an innovative silent wheel track system.

ONE DOOR SLIDING QUADRANT & OFFSET QUADRANT

SILVER MATTE BLACK

The Ili One Door Quadrant and Offset Quadrant are perfectly shaped to make the most out of a corner showering space.

This door has an incredibly smooth opening and closing action thanks to the silent wheel roller mechanism. The stainless steel rollers also boast a quick release design for hassle free cleaning. Clearvue hydrophobic coating resists the build up of grime and limescale on the glass.

DESIGN AWARD

Flair are proud to have received the **Good Design** Award accolade in recognition of the AYO wetroom collection.

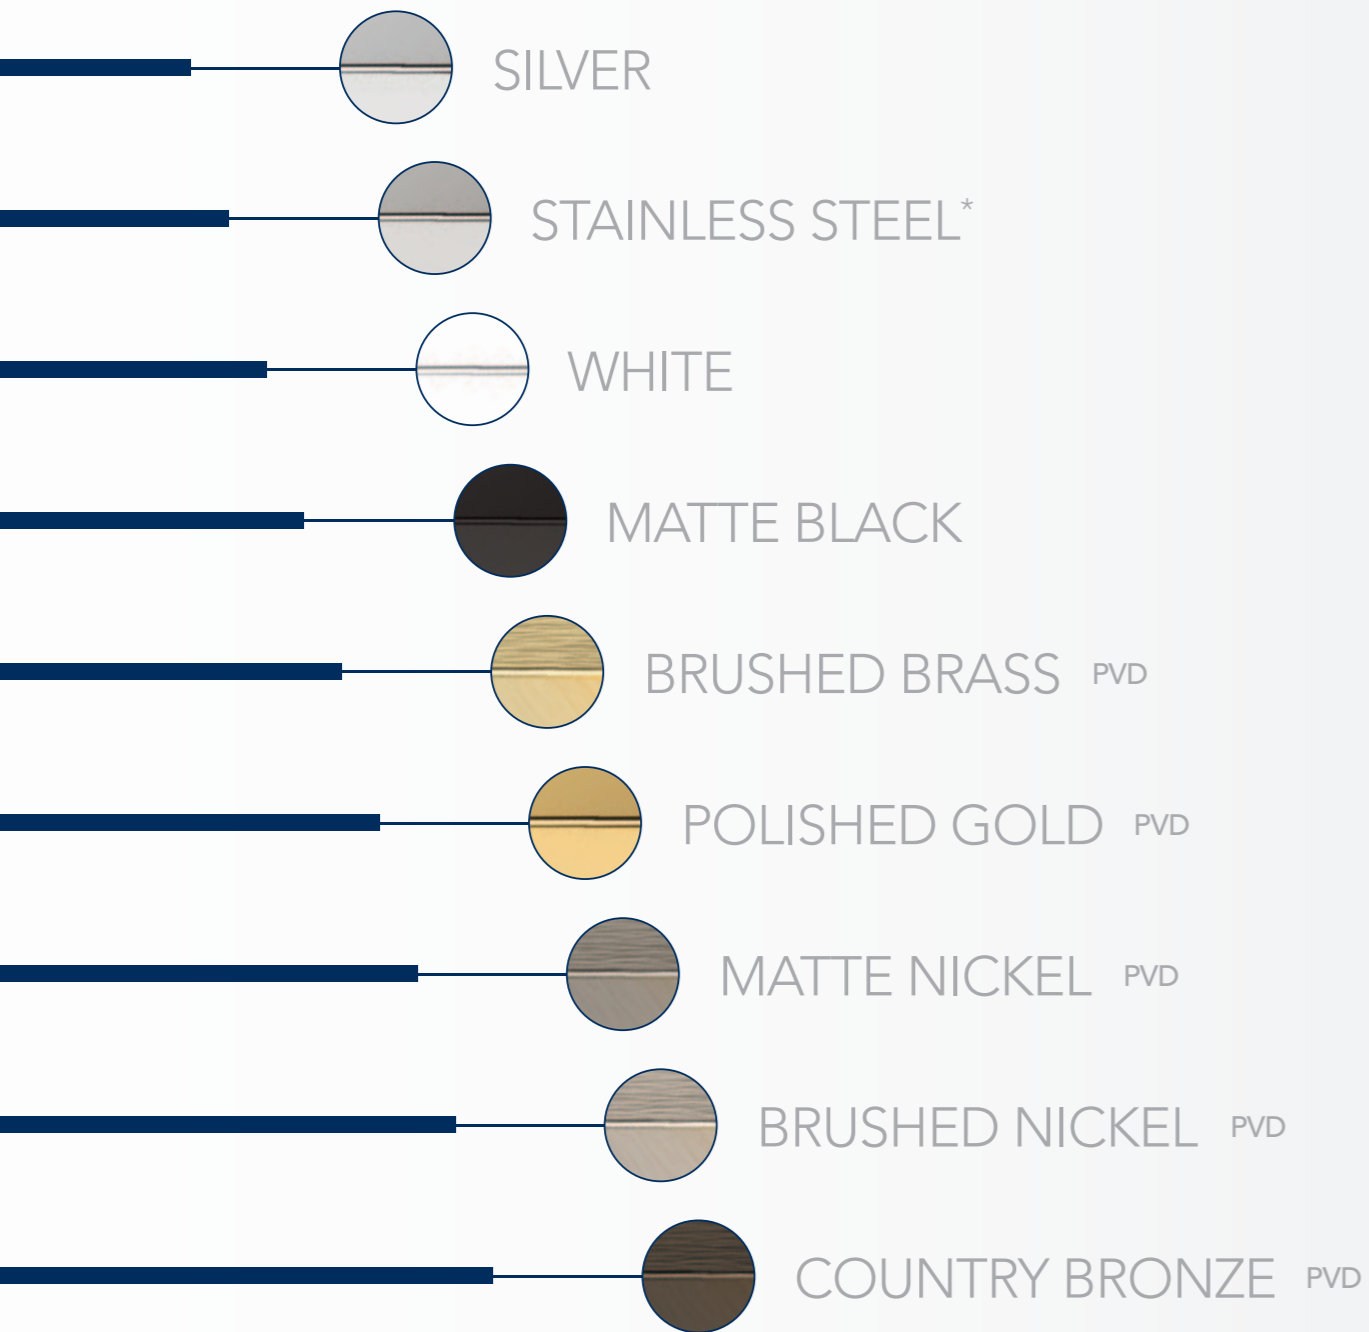

The **Good Design** Award is a seal of global design excellence and a testimony to our passion for product quality and innovation.

EXPLORE
AYO

AYO

MODULAR WETROOM
COLLECTION 8mm & 10mm

THE AYO[®] COLLECTION

The AYO modular wetroom collection is crafted to create a truly personal shower experience.

Standing tall at a height of 2 metres, AYO comes in 8mm and 10mm glass which is treated with a hydrophobic coating that resists the build up of grime and lime scale.

With an abundance of configurations and fixture innovations such as recessed channels, fixed and rotating deflector panels, ultra-clear seals and stylish stabilising bar options, makes this a truly versatile modular wetroom system. AYO boasts 3 glass options - clear, fluted and opaque.

Now available in 9 high quality colour finishes, AYO will pair perfectly with other signature elements in any bathroom.

FINISHES

S - Silver
 SS - Stainless Steel
 W - White
 B - Matte Black
 BRB - Brushed Brass

PG - Polished Gold
 BRMN - Matte Nickel
 BRN - Brushed Nickel
 CTRY BRZ - Country Bronze

PVD

The PVD coating is applied to high grade 304 stainless steel base material. The result is a superbly robust and hard wearing finish.

* Polished Stainless Steel is high grade 304 stainless steel.

AYO[®] COLOUR

THE PVD PROCESS EXPLAINED

PVD - PHYSICAL VAPOUR DEPOSITION

PVD is a technique that applies colour on an atomic level to a base surface inside a vacuum chamber. This process physically changes the original base material to the desired colour composition, meaning that the surface won't wear off or degenerate over time.

PVD is one of the most durable colouring technologies being up to 3 times harder and 10 times more scratch resistant than the alternative surface options.

INFLUENCED BY SIMPLE AESTHETICS

The PVD Finish extends across a select offering of AYO components that includes a 15mm Wall Profile, 1200mm Straight Stabilising Bar, 650mm Angled Stabilising Bar and T Piece.

AYO 10MM WETROOM BRUSHED BRASS

WETROOM DEFLECTOR PANEL

FIXED & ROTATING

Combining effortlessly with AYO wetroom panels, our range of fixed and rotating deflector panels offers comprehensive splash protection whilst maintaining an elegant, tranquil aesthetic within your bathroom.

Showcasing spacious access to the shower area, the rotating deflector design can be folded to an impressive 180 degrees.*

Enhance your wetroom design by choosing a minimal ultra clear corner joining seal - maximising your showers visual appeal.

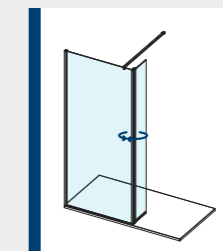

A range of deflector panel sizes are available alongside a selection of stabilising bar configurations to suit your individual needs. Rotating panels can also be retrofitted.

THE AYO® 8MM FRAMED COLLECTION

MATTE BLACK ONLY
AVAILABLE IN CLEAR GLASS & FLUTED GLASS

The contemporary industrial aesthetic inspired by factories and warehouses is now an established trend in bathroom design. With this in mind, the AYO Framed collection is carefully curated to deliver a striking look in the showering zone.

Standing at impressive 2 metres tall, each AYO Framed screen is coated with a Hydrophobic coating to repel against unwanted grime and limescale.

Silk screen print technology enables the interior of all AYO framed screens to retain a flush finish for ease of cleaning and maintenance. Each 8mm toughened glass panel is firstly **silk screen printed** with the black framed design applied to the glass exterior. **Black anodised metal profiles** are then bonded to the exterior of the glass panels.

Expertly designed each AYO glass panel is fully surrounded by a robust metal frame, providing maximum durability for the hardworking bathroom environment.

LINEAR FRAMED WETROOM WITH ROTATING DEFLECTOR PANEL - MATTE BLACK

LINEAR FRAMED CORNER WALK IN WETROOM

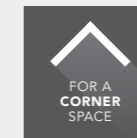

FRAMED CORNER WALK-IN WETROOM

Make a visual statement by choosing a sleek and stylish AYO Framed Corner Walk-in Wetroom.

The black anodised metal profiles fully surround each glass panel and ensure maximum durability in the busy bathroom environment. These AYO Framed fixed glass panels form a luxurious wetroom arrangement that minimises water spray into the bathroom. Easy to clean, each glass panel retains its flush interior finish and has the added bonus of a hydrophobic coating that repels unwanted grime and limescale.

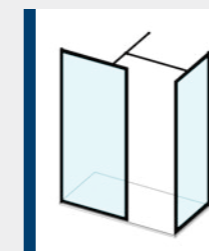

Choose from two striking design options - The Framed Wetroom or Linear Framed Wetroom style.

AYO WETROOM SILVER FINISH - CONFIGURATION 23

AYO[®]

MODULAR WETROOM

CREATE
YOUR OWN
CONFIGURATION

DESIGN YOUR PERSONAL SHOWER SANCTUARY

Elevate your Showering experience with the flexibility and style of **AYO Modular**.

AYO Modular creates a step-by-step process that will help bring your dream shower space to life and is tailored to create a unique shower enclosure design that suits your style.

Choose from a variety of materials, colors, and finishes to create the perfect ambiance.

AYO MODULAR WETROOMS

STEP 1 – CHOOSE AYO GLASS PANEL(S) SIZE

Finishes: Clear glass, opaque glass and fluted glass options available.

See from page 192 for 10mm options and from page 198 for 8mm options.

STEP 2 – CHOOSE WALL PROFILE(S) REQUIRED

Colour: Choose your colour option.

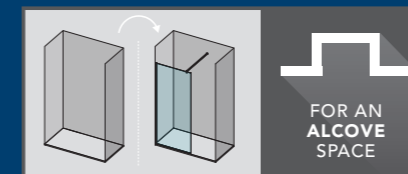

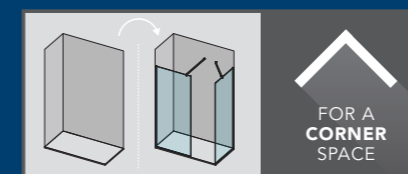

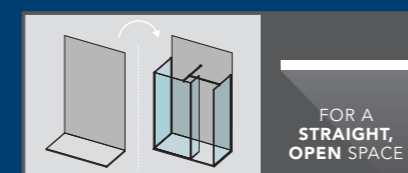

Wall Profile: Choose a 15mm wall profile (All colours) or a 35mm wall profile (Sliver and Black only) or opt for a recessed wall profile (All colours).

STEP 3 – CHOOSE STABILISING SOLUTION

Choose from a selection of stabilising solutions to suit your space and preference.

1200mm straight stabilising bar / 650mm angled stabilising bar available in all 7 colour finishes.

STEP 4 – CHOOSE ACCESSORIES OPTIONS (IF APPLICABLE)

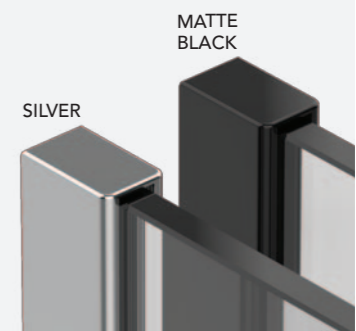

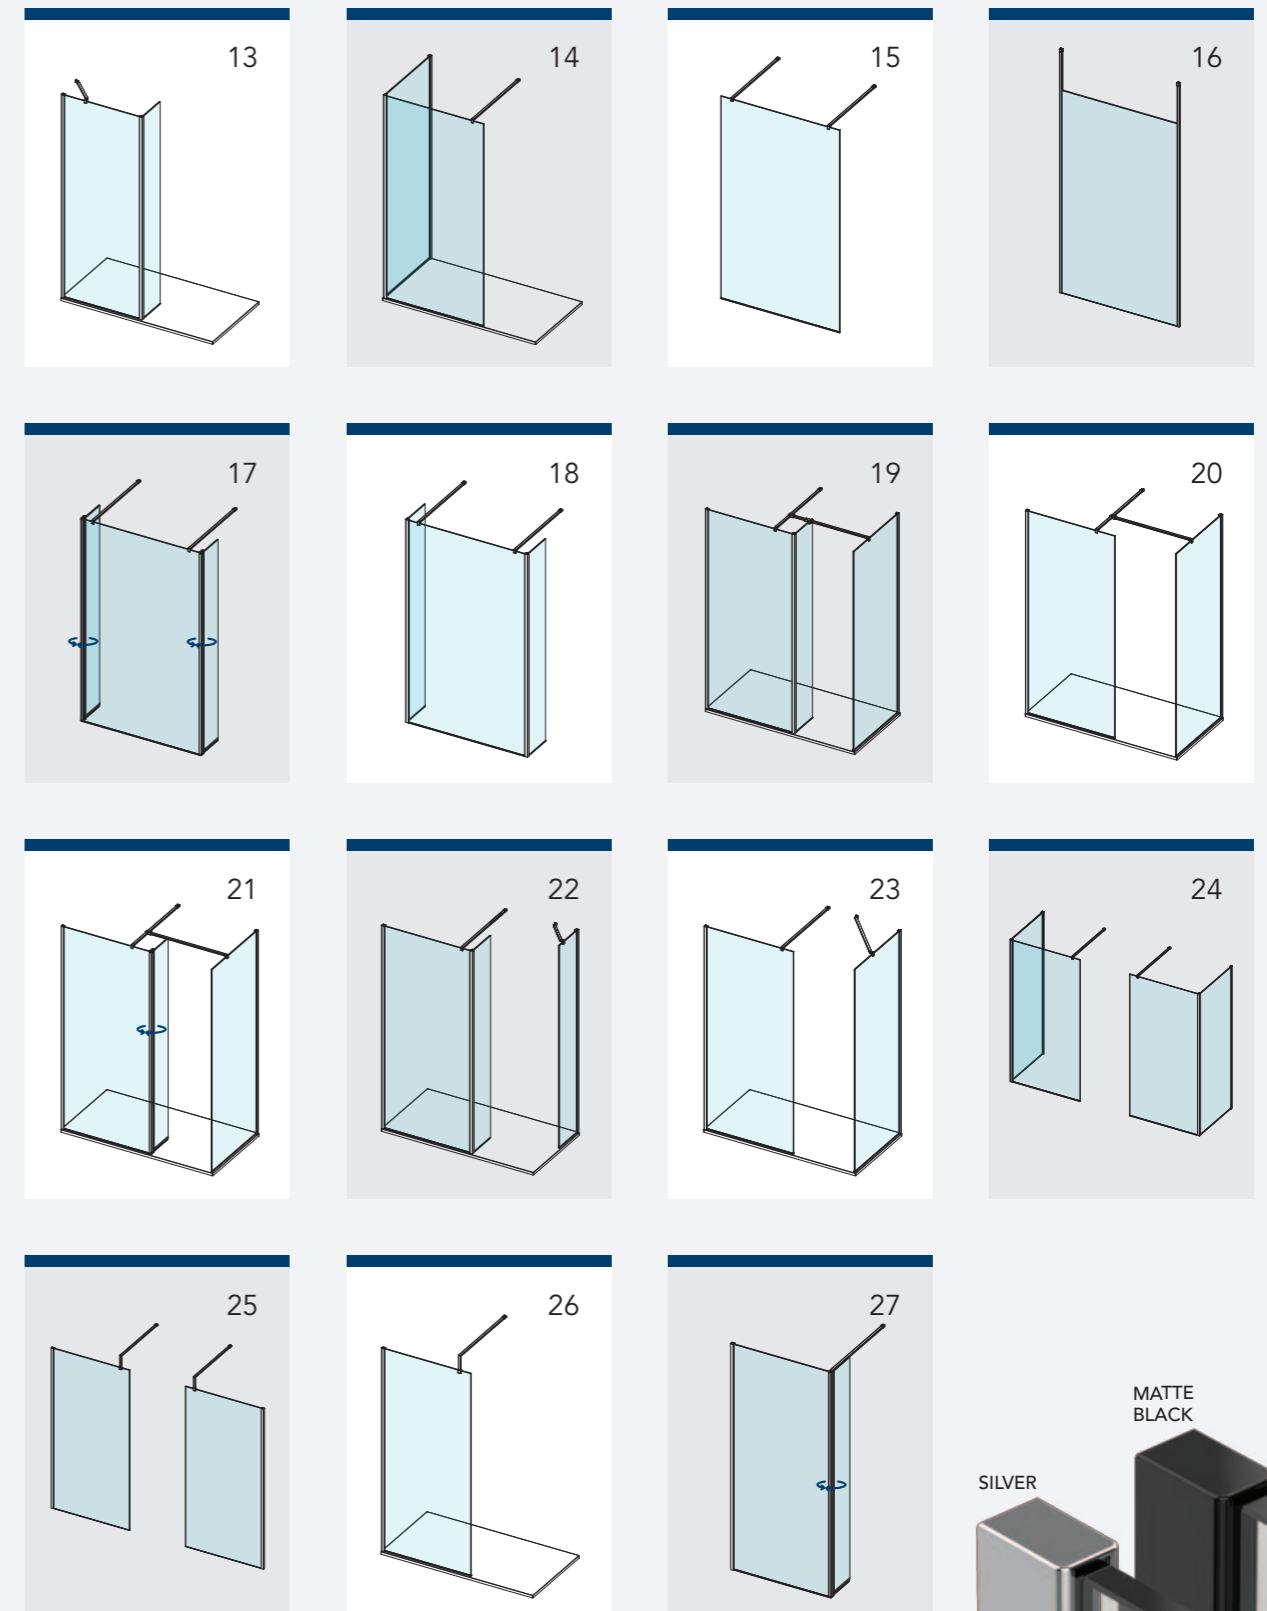

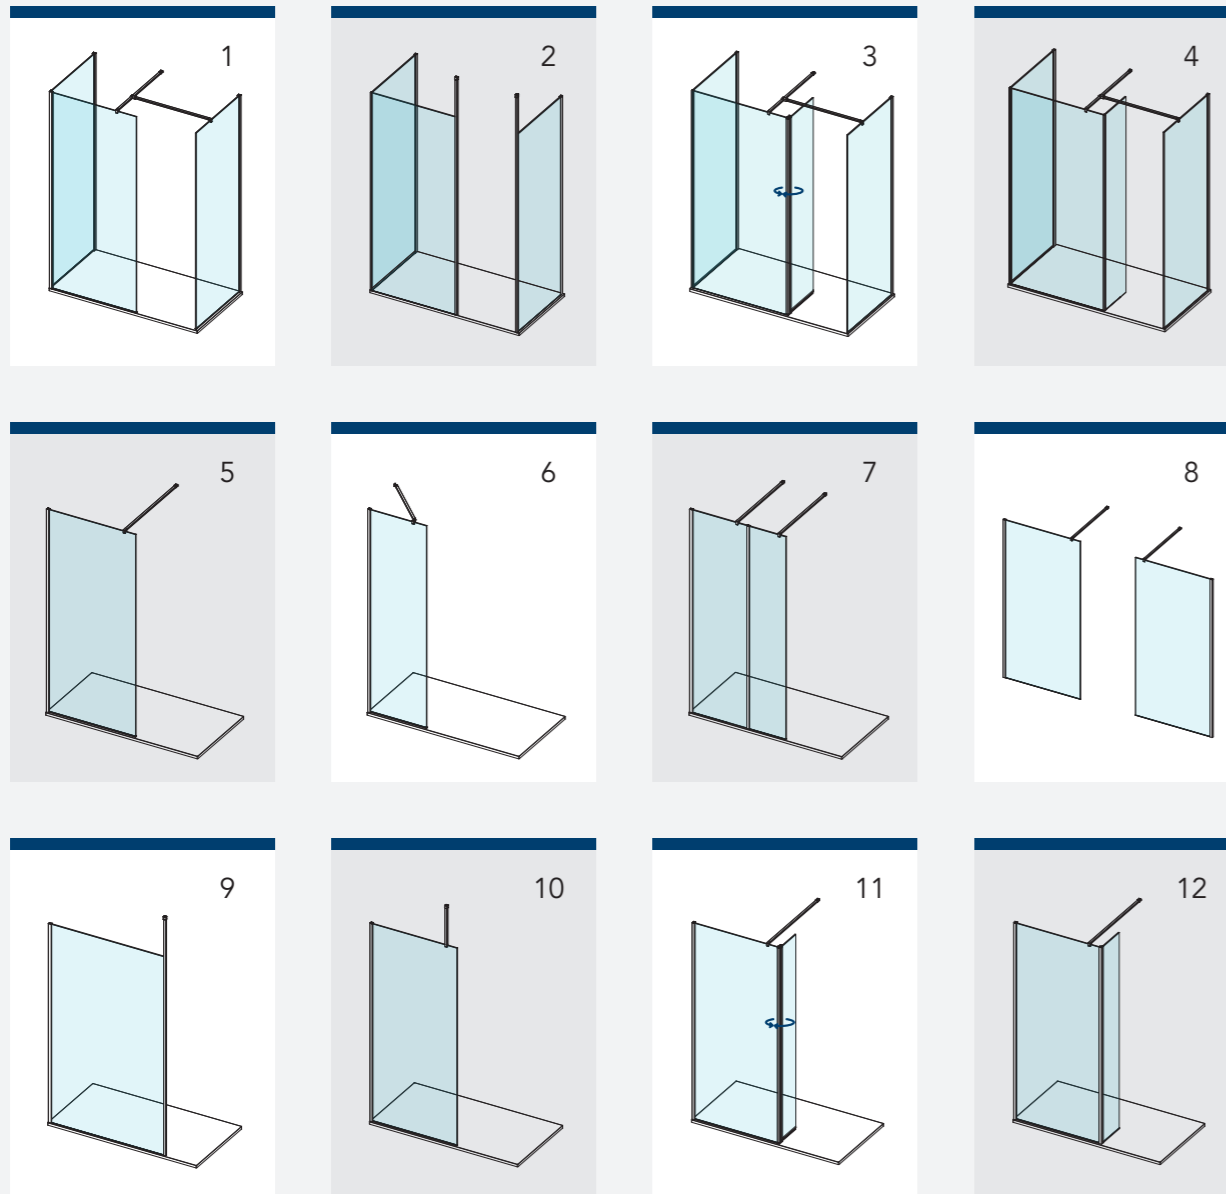

CHOOSE & MEASURE YOUR SPACE

Please note: It is suggested to leave a minimum of 500mm wide access when measuring for your wetroom panel.

CONFIGURATION GUIDE

With an almost infinite choice of wetroom configurations, AYO provides maximum flexibility as you personalise your dream shower space.

 – Indicates Rotating Deflector Panel

PROFILE SOLUTIONS

An array of wall profile solutions provides maximum versatility as each AYO wetroom aspiration becomes the reality.

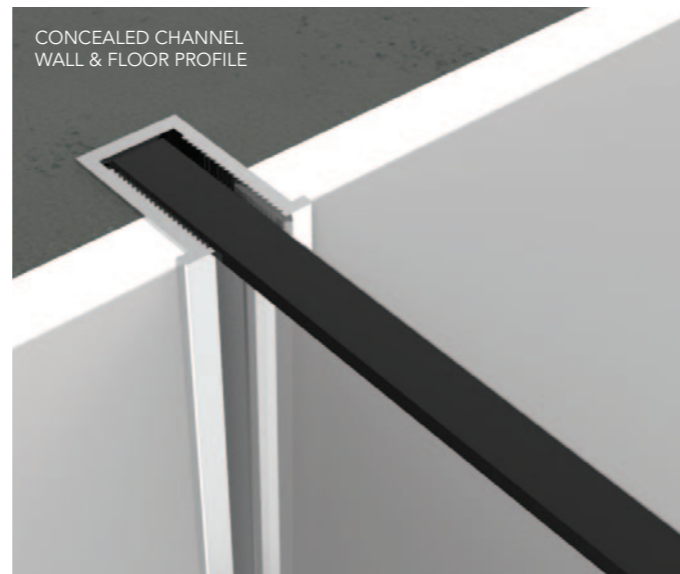

All profile solutions are available in the standard Silver and Black options.

AYO COLOUR

Please note: 15mm Wall Profile is available the premium colours - White, Brushed Brass, Matte Nickel, Stainless Steel and Polished Gold.

SEAL SOLUTIONS

AYO maximizes your shower's visual appeal by offering an extensive selection of discreet ultra clear seal options.

STABILISING SOLUTIONS

The subtle contours of each AYO stabilising bar delivers the perfect blend of form and function. Each fixation bracket is masterfully engineered for durability, with screw points discreetly concealed from view.

An array of stabilising solutions are available in the standard Stainless Steel and Black options.

AYO COLOUR

Note: The following stabilising bar options are available in White Brushed Brass, Matte Nickel and Polished Gold PVD finish:

- 1200mm Straight Stabilising Bar
- 650mm Angled Stabilising Bar
- T Piece

AYO POLISHED GOLD WETROOM & HINGE ROTATING PANEL

GEMSTONE

The Gemstone brand is synonymous with quality and style. This extensive selection of slate textured shower trays compliment the most beautiful of bathroom designs. With an ultra minimal height of 25 to 30mm, each tray is anti-slip rated and available in 4 colour options - Onyx Black, Graphite Black, Flint Grey or White.

Choose from square or linear shape shower drain options. Both visually appealing and sensual to touch, a Gemstone shower tray will work perfectly in a wide variety of bathroom applications, be they classic, modern or contemporary in design.

SHOWER TRAYS

GEMSTONE INFORMATION

GUARANTEE

Your Gemstone tray must be inspected 100% before installation. Fitting of tray is acceptance of quality. Please read fitting instructions fully before installation.

Before tiling and placing the screen or any other fixed material on the shower tray, please make sure that the perimeters of your tray are 100% level in all directions.

The guarantee only covers the replacement or repair of the product and excludes any other compensation, assembly or travel costs.

Gemstone Trays are guaranteed for 2 years, in accordance with current European regulations.

The following are excluded from the guarantee:

- Damage caused by misuse
- Damage caused by the use of unsuitable cleaning materials (do not use products containing acids, alcohol, chlorine or solvents, do not spill drain cleaners onto the shower tray, do not use metallic or scouring pads)
- Damage caused by improper installation
- Damage caused by the improper handling of the product

Our products must be installed by qualified personnel to be eligible for the product guarantee. An installation guide will be delivered with the tray for its proper placement.

Before installing the tray you should make sure that:

- The tray drains well and is 100% level
- It has no anomalies
- The tray has been stored in a horizontal position, on a flat surface, until installation

CLEANING

- Routine: rinse and leave to dry
- Thorough: rub with a soft cloth with neutral liquid detergent; for limescale prevention use an anti-lime product

Please note, Gemstone Trays are manufactured from a natural stone resin composition. You must allow for a tray thickness tolerance of 2 - 3mm.

CHEMICAL TESTS

Chemical resistance tested in accordance with UNE-EN 12527 - No deterioration.

CHEMICAL TESTING COMPOSITION

Acetyl acid (10%), sodium hydroxide (10%), ethanol (70%), bleach, methylene blue (1%).

CLEANING SOLVENT (PRODUCT)	EXPOSURE TIME (DAYS)	RESULT OF VISUAL INSPECTION
Don Limpio Neutral PH	4	No Visible Effect
Perfumed Home Bleach	4	Slight Bleaching
Ace	4	Slight Bleaching
Perfumed Ammonia	4	No Visible Effect
Viakal	4	Slight Bleaching
Cillit Bang	4	No Visible Effect
KH-7 Anti-lime	4	No Visible Effect
White Wine Vinegar	4	No Visible Effect
Povidone Iodine	4	No Visible Effect
Hydrochloric Acid	4	No Visible Effect
Hydrogen Peroxide	4	No Visible Effect
Cleaning Solvent	4	No Visible Effect
Methylated Spirits	4	No Visible Effect
Acetone	4	No Visible Effect
Nail Polish Remover	4	No Visible Effect

PACKAGING AND STORAGE

The products are delivered packed in individual boxes with expanded polystyrene reinforcements, including the drainage grate. Gemstone trays must be stored in a horizontal position on a flat surface until installation. This prevents the tray from losing shape.

FAQ

Can it be cut?

Yes, with a diamond cutting wheel.

Note - Maximum trim of 200mm on rectangular waste trays. Maximum trim of 100mm on linear waste trays, with the cut applied to opposite end to the linear drain.

Can it be repaired?

Although they are highly resistant to any impact, we have a repair kit available to the customer. Please contact us on 01279 443 644 to order your Gemstone Tray repair kit. Lead time applies.

How should the product be cleaned?

We recommend cleaning with water and neutral soap, applied with a sponge, never with scouring products or tools.

What material should I use to install the products?

Your Gemstone tray must be installed on a fully level glue-cement or mortar base. For sealing the product, it is recommended to use MS flexible polyurethane sealant and / or a neutral silicone.

FLAIR EASY PLUMB KIT

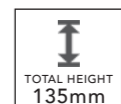

Flair slimline easy plumb shower kits have adjustable legs to comply with building regulations to assist in installation and for maintenance of waste outlets if required after building settlement.

The Flair slimline easy plumb kit provides this access without compromising on style in the bathroom.

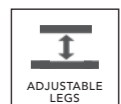

An easy plumb tray can be made by using any of the Flair slimline trays and a kit. This will increase the height of the tray by 95mm.

Accessories are not to scale - for visual representation only.

The Benefits of using Anti-Slip Technology:

Clever Anti-Slip surface technology for a lifetime of showering confidence. Ideally suited to families with young children and those who just want to feel confident on their feet while in the shower; this unique patented technology ensures a lifetime of underfoot confidence when showering.

Unlike other Anti-Slip technologies which are applied on top of the surface of the tray after manufacture and wear away over time, our patented Anti-Slip surface is integrated directly into the shower tray at time of manufacture, meaning it never wears away and will last as long as the shower tray.

The Anti-Slip range offers a permanent guaranteed solution. When independently tested to the British standard 7976-2 test, the patent protected surface provided almost twice the bathroom industry standard of slip resistance.

Smart Water Management Control

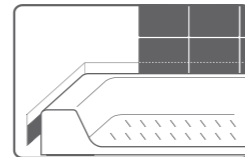

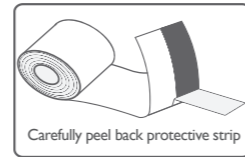

Our unique Smart Water Management Technology clears water instantly from the tray's surface. This greatly reduced the slip hazard of surplus water and soap deposits. Although the tray surface appears almost flat, it combines perfectly with the vortex technology of the waste unit to create a vacuum effect beneath the surface.

The result is that almost all surplus water is actually drawn from the tray's surface instantly. In addition, no moving parts or hair traps means no maintenance and no risk of flooding.

QUALITY GUARANTEED

QUALITY GUARANTEED

Please consult the relevant consumer product brochure to view the Guarantee terms offered on each Flair product range.

At Flair we have an unwavering commitment to product quality.

All Flair products are CE approved and manufactured in accordance with ISO 9001 :2000 Quality Assurance systems. All glass is toughed safety glass and produced to EN12150. Flair products are performance tested to EN14428, ensuring the highest industry criteria is met.

Note: Proof of purchase is necessary to validate your guarantee so retain purchase receipt for your Flair product.

If a Flair shower enclosure is defective in materials or manufacture, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.

AFTERSALES & SPARE PARTS SERVICE

Flair is 100% committed to customer service excellence.

We carry a full range of spare parts for each product range and have dedicated aftersales specialists to deal with any issues you may have.

If you have any queries, please contact Flair on 00353 42 966 8000.

RETURN POLICY

Flair will not accept return of any product that has been opened.

We do not accept return of any product if the packaging has been damaged.

If the product is unopened and not damaged, we will accept the return of the product but a handling fee of 25% of the invoice price will be charged.

SHOWER DOOR INSTALLATION ADVICE

BEFORE YOU INSTALL YOUR SHOWER ENCLOSURE PLEASE READ ALL INSTRUCTIONS. FAILURE TO DO SO MAY LEAD TO INVALIDATION OF YOUR GUARANTEE.

Flair Showers Ltd will not accept responsibility for any loss or damage, however caused, if the shower enclosure has not been installed as per the instructions.

- The shower tray MUST be fitted 100% level. The shower tray must be sealed correctly to prevent any water leakage.
- Glass edges are vulnerable and should be treated with care at all times. Contact with hard surfaces may result in glass breakage if due care is not taken.
- Check walls for electrical cabling or water pipes before drilling.
- Your shower enclosure, bath screen or wetroom must be inspected before installation. Check for all visual defects on the product before installation. Once the enclosure has been installed no claims of damage or defect will be accepted. Fitting of shower enclosure is acceptance of quality.
- The wall plugs supplied with the shower door are for use in solid walls. Timber frame, stud partition walls will require alternative fixings.
- Ensure vertical wall profiles are level and are an equal distance in from the tray.
- Shower Doors, Wetroom Screens, Bath Screens and Side Panels are adjustable between the dimensions stated. All dimensions are approximate.
- Ensure adjustment at wall profiles are equal at both sides and that all screws are fully tightened.
- Ensure hinges are level and securely fitted to the glass.
- Ensure magnets are the right orientation and are attracting rather than repelling.
- The shower enclosure should be sealed on the outside only using silicone sealant.

- Care must be taken during assembly. Flair will not accept responsibility where incorrect assembly results in undue stress being put on any components in this product.
- If there are any manufacturer defects, please contact us on (Ireland & Northern Ireland) +353 42 966 8000 or (UK) 0800 1800 8050.
- Note: If a problem has been caused by incorrect installation, a call-out charge will apply for the Flair technical engineer's time. Subsequent charges will apply "to fix" a problem caused by incorrect installation.

BATH SCREEN INSTALLATION

The bath screen must be installed on a 100% level surface with the bath edge free from obstructions.

Bath screens should not be used on a bath with roll top rim, stepped edge rim or where the bath handle void meets the bath screen seal. This will impact on the performance of the bathscreen and the guarantee will be void. The Bath screen should be fitted to the inside edge of the bath only.

A bath screen acts as a water deflector and is not 100% waterproof. If used appropriately under normal showering conditions and installed to the inside edge of the bath, water will be deflected into the showering area. Bath Screens are not suitable for power showers.

SHOWER TRAY INSTALLATION

All shower trays must be installed as per instructions supplied. Install on a base of fine sand, cement and cement additive. Please note: Silicone sealants, foams, mastics, installation compound adhesive or similar must not be used as a substitute for cement. Ensure shower tray is 100% level and water test to ensure water is draining correctly. If not satisfied at any stage do not proceed with fitting. Fitting of Shower Tray is acceptance of quality.

NOTE: It is normal for a small amount of localised water to be retained on a shower tray surface after use. This should be wiped dry to prevent any build up of residue.

CLEANING GUIDELINES

- Glass: Use a soft cloth and mild detergent, rinse off thoroughly.
- Metallic Surfaces: Use a soft cloth and warm soapy water. Rinse off thoroughly.
- Do not use "Spray & leave" cleaning products on the metal surface as these will cause damage to your product. These include acidic based cleaning products, bleaches, solvents or abrasive pads. Only use detergents, cleaners and limescale removers with a pH of 5-8.
- The constant use of detergents will degrade the finish of the product over time if not thoroughly rinsed off.
- In hard water areas, regular cleaning of your Flair door will help to prevent the build-up of limescale. Stubborn deposits of limescale can be removed with the use of a mild limescale remover.
- Check your shower door for functionality periodically. Ensure that the wheel track is free from any grit/dirt which may have collected over time.

CONDITIONS OF SALE

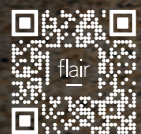

Unless otherwise stated, all price quotations are subject to acceptance within 30 days of date of issue. Other than in the case of faulty goods / incorrect despatch, Flair will not accept the return of any product.

As part of our continuing policy of product improvement, we reserve the right to amend specifications, colours and prices without prior notice. Images are for illustrated purposes only. The colours and finishes shown in the catalogue are as accurate as possible within the limits of the printing process. The positioning of all shower heads and shower wastes in the brochure is for illustrative purposes only.
